## UI/UX Designer

Jersey City, NJ | 201-637-4875 | khatrimili91@gmail.com | milikhatri.com | linkedin.com/in/mili-khatri/

### SUMMARY

---

UI/UX Designer with experience designing responsive web and mobile experiences across SaaS, healthcare, e-commerce, and nonprofit platforms. Skilled in user research, wireframing, prototyping, usability testing, and accessibility-focused design. Proficient in Figma and passionate about creating intuitive, user-centered solutions that drive engagement and business goals.

### EDUCATION

---

#### NEW JERSEY INSTITUTE OF TECHNOLOGY

Bachelor of Arts - Major in Information Systems  
Cumulative GPA: 3.6/4.0

Newark, NJ

Sep 2021 - May 2025

### WORK EXPERIENCE

---

#### DEGRAY SYSTEMS DEVELOPMENT

Remote

UI/UX Designer (Contract)

May 2025 – Present

- Designed a multi-page, responsive B2C SaaS website for an older demographic, creating wireframes, high-fidelity prototypes, and interactive states in Figma to reduce navigation friction for non-technical users.
- Led branding + UX foundation for a B2C healthcare platform by running stakeholder interviews with executive leadership; delivered a cohesive visual system and interactive website prototypes using Figma and Adobe tools.
- Audited and redesigned WordPress e-commerce UX for a B2B services/products platform; improved traffic by 9% and conversion by 15% through usability testing, form-flow redesign, and end-to-end journey optimization.
- Built and documented a WCAG-aligned UI component library and handoff specs, improving consistency and reducing developer rework during implementation.

#### BE THE CAUSE.ORG

Remote

UI/UX Design Intern

May 2025 - Sep 2025

- Designed UI layouts and reusable components in Figma with a focus on clean, accessible design; reduced developer handoff time by 20% and improved consistency across web and mobile.
- Created a comprehensive style guide using Figma and Adobe tools to improve consistency and accelerate design-to-development workflows.

#### BIZINC

Remote

UI/UX Design Intern

Sep 2024 - Dec 2024

- Created wireframes, mockups, and interactive prototypes for web/mobile in Figma; reduced design iteration cycles by 25% through clearer stakeholder alignment.
- Collaborated with development to reduce front-end rework by 20% through clearer specs, component reuse, and improved handoff artifacts.
- Conducted user research and usability testing, identified key pain points, and informed changes that improved task completion by 30% and user satisfaction scores.
